

## Product Configurator

### M7220 Series Wireless Handheld Terminal

The M7220 Series features 802.11b/g WLAN connectivity, a powerful Samsung S3C2410 ARM9 processor and 32MB RAM/16MB Flash ROM. The M7220 ships fully loaded with VT100/VT220 terminal emulation, TN5250 client, FTP server, SSH client, HTTP server, TELNET server, SSH/SFTP server, Web Browser, WEP and WPA/WPA2 security capabilities. Administrators can easily configure and replicate settings on multiple terminals from their PC utilizing the M7220 PC-based Configuration Utility.

The M7220 is available in multiple product configurations, with or without a pistol grip handle. Choose the 55-key alphanumeric keypad or the lockable 35-key numeric keypad for applications requiring fast data entry. Fully integrated scan engine options include standard laser, long range laser, advanced long range laser, or 2-Dimensional imager for picture and signature capture. EU RoHS compliant.

**Comes With:** Terminal, Battery, Documentation CD, VT100/VT220, TN5250 Terminal Emulation, WEP/WPA/WPA2 and the M7220 PC-based Configuration Utility.

**Warranty:** One Year

**Need to Know:** A charging cradle is required to charge the battery. See M7220 Accessories.
