AML Wireless Handheld Terminals

M7220 Wireless Hand-Held Terminal

The M7220 Series features 802.11b/g WLAN connectivity, a powerful Samsung S3C2410 ARM9 processor and 32MB RAM/16MB Flash ROM. The M7220 ships fully loaded with VT100/VT220 terminal emulation, TN5250 client, FTP server, SSH client, HTTP server, TELNET server, Web Browser, WEP and WPA/WPA2 security capabilities. Administrators can easily configure and replicate settings on multiple terminals from their PC utilizing the M7220 PC-based Configuration Utility.

The M7220 is available in multiple product configurations, with or without the pistol grip handle. Choose the 55-key alphanumeric keypad or the lockable 35-key numeric keypad. Fully integrated scan engine options include standard laser, long-range laser, advanced long range laser, or 2D Imager for picture and signature capture. EU RoHS compliant / PB-Free

Comes With: Terminal, Battery, Documentation CD, VT100/VT220/TN5250, WEP/WPA/WPA2 and M7220 PC-based Configuration Utility.

Warranty: One Year

Need To Know: Terminal Charger is required to charge the battery. See M7220 Accessories.

M71V2 Wireless Hand-Held Terminal

The M71V2 Series wireless hand-held terminal features 802.11b WLAN connectivity and a choice of integrated scanner options. It features a 55-key silicon rubber keypad, a backlit LCD, a 2200mAh Lithium Ion battery, and weights 18.5 ounces. Comes with VT100/220/TN5250 clients pre-loaded, one battery and a CD containing the manual and other product relevant information. EU RoHS compliant / PB-Free

The M71V2 Series is a true replacement for the M7100 Series wireless hand-held terminal from AML. Sporting the same form, fit and function, the M71V2 easily drops into existing M7100 wireless applications with minimal impact to the end user.

Comes With: Terminal, Battery, Documentation CD, VT100/VT220, TN5250 Terminal Emulation and WEP/WPA/WPA2 security capabilities.

Warranty: One Year

Need To Know: Terminal Charger is required to charge the battery. See M71V2 Accessories.

Compact Handheld Computer

M8050 Compact Handheld Computer

The M8050 is a ruggedized handheld computer in a PDA form factor. Featuring a QVGA color touchscreen LCD, integrated magnetic stripe reader, and long-life 5200 mAh battery, the M8050 is versatile enough for a multitude of applications. A powerful 400MHz processor runs either Windows CE 6.0 or Linux, and a generous amount of memory (128MB RAM, 128MB ROM) provides ample storage for applications and data.

Comes With: User Documentation CD, Battery

Warranty: One Year

Need To Know: An ACC-8025 cradle is required for charging the battery.

Kiosk Data Terminal

KDT900 Kiosk Data Terminal

The KDT900 from AML is a user-friendly, full-featured general purpose kiosk/data terminal with a wide variety of application possibilities. Powered by Windows CE® and featuring a number of user input/output options, the KDT900 is perfect as a time-and-attendance terminal, a retail price checker, a digital sign, access control terminal, or a general purpose information kiosk.

Comes With: User Documentation CD

Warranty: One Year

Need To Know: Power-Over-Ethernet is standard. If this feature is not used, the PWR-8050 power supply is required.

Price Verification Systems

KDT750 Price Verification System

The KDT750 from AML is a user-friendly, full-featured price verification system that delivers outstanding functional value in a compact, space-saving footprint. Featuring simple touch screen navigation and a 5.6" full VGA color display, the KDT750 allows retailers to deploy applications that engage customers and enhance the shopping experience - right at the point of purchase. Optional accessories include magnetic stripe reader, HID proximity card reader, CCD or omni-directional 2D bar code reader. The KDT750 mounts easily to walls, poles, and shelves with the appropriate optional mounting hardware kit.

Comes With: User Documentation CD

Warranty: One Year

Need To Know: Power-Over-Ethernet is standard. If this feature is not used, the PWR-8050 power supply is required.

Batch Portable Data Terminals

M5900i Portable Data Terminal - Industrial

The M5900i portable data terminal, with its factory installed protective boot and pistol grip handle, is suited for more rugged manufacturing/industrial environments.

Each M5900i industrial portable data terminal features 32MB RAM/16MB Flash ROM memory, a 2200 mAh Lithium-Ion battery, a backup Lithium battery, a large backlit LCD, a 55-key alphanumeric or optional 35-key numeric keypad, and your choice of integrated standard laser, long range laser, advanced long range laser or 2D Imager scan engine. Ships complete with battery, USB cable, and documentation CD with Program Generator. EU RoHS compliant.

Comes With: 5900i Terminal, Battery, Documentation CD with Program Generator, and USB Cable

Warranty: One Year

Need To Know: The ACC-5910 In-Line Charger or the ACC-5925 Terminal Charger is required to charge the battery. See M5900 Accessories or order a pre-configured kit below.

Maintenance Agreements

AML Maintenance Agreements

An AML Maintenance Agreement may be purchased for a product whose warranty has expired. Maintenance agreements may be purchased anytime after the expiration of the standard limited warranty. However, before the activation of a maintenance agreement, the product must be returned and inspected to ensure the product is in good working order and free from defects. This process is subject to a \$35 inspection fee as well as flat-rate repair charges incurred to repair the unit, if required. The customer will be contacted after the inspection and prior to performing any repair activities.
