Getting Started

1 Charge the PDX10 for 4 hours

Use the supplied USB cable and power adapter to charge from a 110VAC wall outlet. *Phone chargers may or may not work properly with the PDX10 due to possible differences in charging currents. In addition, USB ports on desktop computers/laptops are also inadequate for charging and should not be used.*

Connect the USB cable here

Getting Started

2 Starting up the PDX10

Power and Reset Procedures

Power Button

- Press and hold the power button to turn the PDX10 on.
- Pressing the power button briefly, while the unit is on, will either put the PDX10 into suspend mode, or wake it up depending on its current state.
- Pressing and holding the power button for a few seconds will display two prompts on the screen, to either "power down" or "reset" the device.

Getting Started

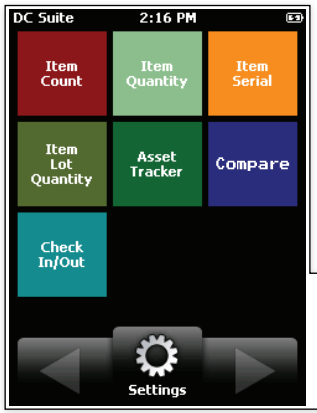
3 Download DC Console

Utilize ***DC Console*** to quickly modify existing applications or create new ones and transfer files from your PDX10 to your PC.

Download the DC Console utility at
www.amltd.com/Software/DC-Software

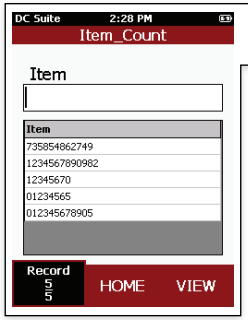
DC Suite Software

The PDX10 comes with a suite of pre-installed applications as a part of our **DC Suite**. These applications were developed for common data collection tasks and are ready to go right out of the box.

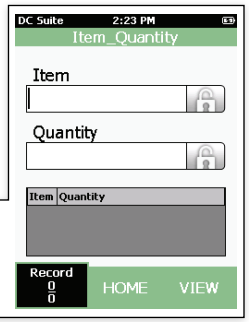


Dashboard
All applications are launched from here.

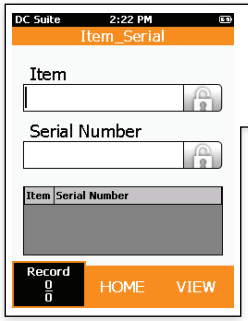
DC Suite Software



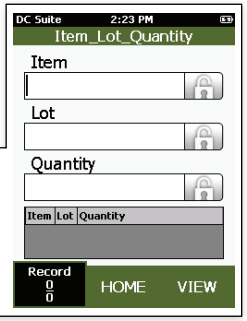
Simple one-field scanning.



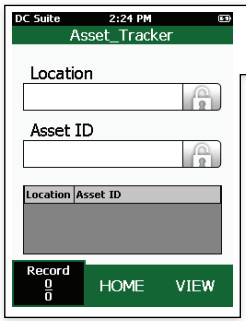
Scan the Item Number and key in the Quantity.



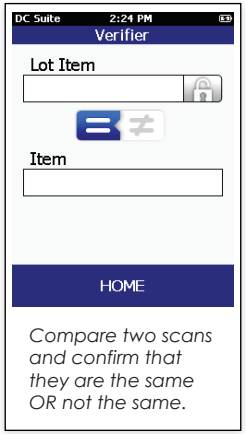
Scan in Item Number and the unique Serial Number.



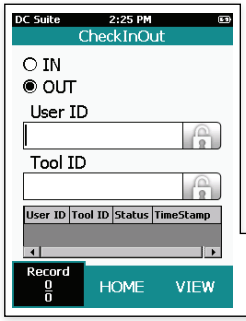
Scan the Item Number and then collect Lot Number and Quantity information.



Asset Tracking application.



Compare two scans and confirm that they are the same OR not the same.



Check-In/Out application for tool or part rooms.

Accessories

The PDX10 comes with a 110V power supply and a USB-C cable.

Replacements can be ordered if needed.

Power Supply: PWR-5V2A-USB
Cable: USBC-USBA-2M
