# PDX10 Firmware Update

1

Before proceeding with the OTA update, verify that PDX10:
- is connected to a wireless network with internet access
- has a battery charge greater than 30%

2

Go to: **Settings → System → AML System updates →** and tap **Update:**

Allow a few minutes while the PDX10 downloads and installs the system update.
The PDX10 will reboot on its own upon successful completion.

Go to **Settings → System → AML System updates**
Verify Firmware is updated: **Current and Update ID numbers** should match
