

Striker Firmware Update

1

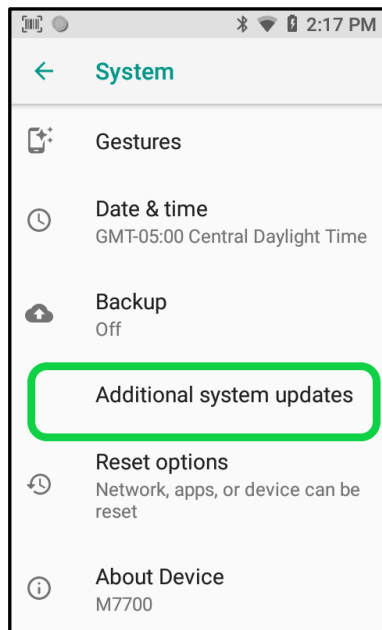

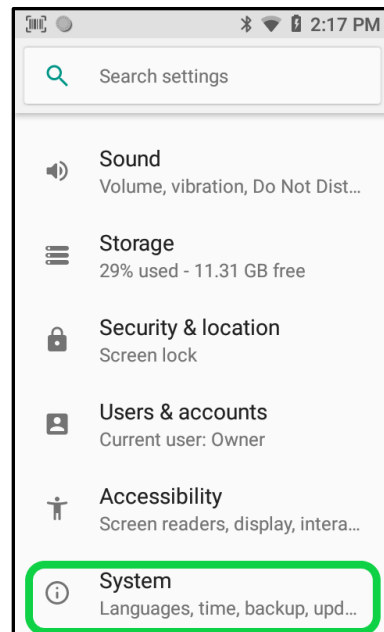

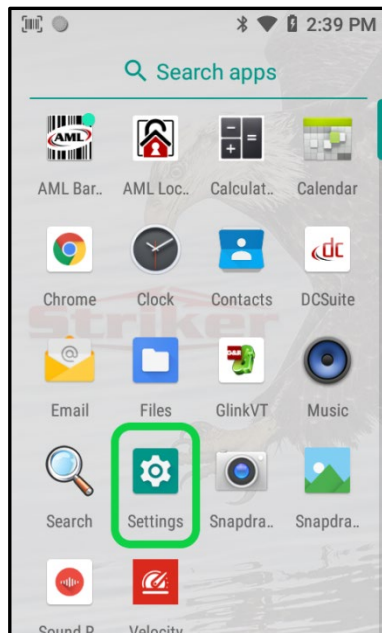

Before proceeding with the OTA update, verify that the Striker:

- is connected to a wireless network with internet access.
- has a Battery charge greater than 30%

2

Go to **Settings** → **System** → **Additional system updates**

Press **Update**

3

Allow a few minutes while the Striker downloads and installs the system update.
The Striker will reboot on its own upon successful completion.

4

Go to **Settings** → **System** → **Additional System updates**

Verify Firmware is updated: **Current and Update ID numbers** should match
