Laser Devices

Class 2 laser scanners use a low power, visible light diode. As with any very bright light source, such as the sun, the user should avoid staring directly into the light beam. Momentary exposure to a Class 2 laser is not known to be harmful. The following statement is required to comply with US and international regulations.

CAUTION Use of controls, adjustments, or the performance of procedures other than those specified herein may result in hazardous laser light exposure.

Label Reads

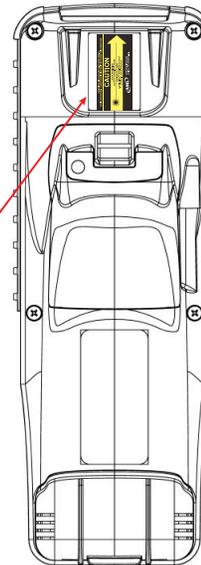

COMPLIES WITH 21CFR1040.10 AND 1040.11
AVOID EXPOSURE. LASER RADIATION EMITTED FROM THIS APERTURE
CAUTION
