StrikerX

Starts at $2,045 MSRP

With next-gen processing power, StrikerX is built to handle the most demanding applications. StrikerX comes preloaded with an array of software applications that make deployment and administration a breeze.

- Android™ 13+
- 4" LCD with capacitive touchscreen.
- 58 or 47-key tactile keypad.
- Wi-Fi 6E, BLE 5.2
- Qualcomm® QCS6490 processor.
- 24.3 watt-hour battery.
- Multiple barcode scanning options.
- IP65, 6' drop rating.

Dragonfly

Starts at $1,995 MSRP

- Android™ 13+
- 4.3" touchscreen, Gorilla Glass 5.
- QCS6490 Processor, 2.7GHz.
- 802.11ax (Wi-Fi 6E).
- 9.5 ounces.
- 18.5 watt-hour standard battery.
- Wireless barcode scanning options.
- BLE 5.2 Dual Mode.

Dragonfly is a wearable computer designed to be worn on the arm allowing hands-free operation. Wearable computers are ideal in warehousing environments where speed, comfort, and efficiency are extremely important.

WSC-1600 / WSC-2700

Starts at $595/1,295 MSRP

The WSC-1600 and WSC-2700 ring scanners are designed to be worn on the finger or back of the hand. Both scanners can be paired wirelessly with the AML Dragonfly and other computer hardware including tablets and vehicle mounts.

- 1D/2D Imager & Near/Far 2D Imager.
- 1.62 ounces & 2.08 ounces.
- 600mAh battery.
- 5' drop to concrete.
- 20,000 tumbles at 3.3 feet.
- Wireless pairing.
- USB Type-C port.

Scepter Pro

Starts at $2,695 MSRP

- Android™ 13+
- 5.5" LCD , Gorilla® Glass 5
- 58 or 47-key tactile keypad.
- Wi-Fi 6E, BLE 5.2
- Qualcomm® QCS6490 processor.
- 24.3 watt-hour battery.
- 13MP Camera w/ autofocus and flash
- IP65, 6' drop rating.

The Scepter Pro was engineered for industrial applications such as manufacturing or warehousing, where a rugged device is necessary and the larger 5.5" display is desirable.

MADE IN USA SINCE 1983

Firebird VMU

Starts at $1,595 MSRP

The Firebird Vehicle Mount Computer fills a void in the market for affordable, yet durable, forklift-mounted devices. The Firebird VMU is sized right to provide the user with a large 7" screen to keep task-related data easily viewable without impeding the driver's view.

- Vehicle Mount Computer.
- Android 8.1
- 7" LCD with capacitive touchscreen.
- Shock and vibration tested.
- Tethered or wireless barcode scanner.
- Standard VESA 75mm mounting pattern.
- Landscape or portrait mode.

Monarch+

Starts at $2,395 MSRP

- Self-Service Kiosk.
- Windows® 10
- 10.1" LCD with capacitive touchscreen.
- 2D omnidirectional barcode scanner.
- USB, Ethernet, HDMI.
- Optional 802.11bgn with BT 4.0
- Power: PoE+, 5VDC

The Monarch+'s powerful architecture provides the performance of a desktop in user-facing applications. Integrated barcode scanning, printer, mag-stripe reader and EMV reader are all available options, as is our StoreScan price verification software.

Firebird

Starts at $1,695 MSRP

The Firebird self-service kiosk is equipped with a 2D barcode scanner and can be powered over PoE equipped networks. The Firebird is also capable of running AML's StoreScan price verification software for retail applications.

- Self-Service Kiosk.
- Android® 8.1
- 7" LCD with capacitive touchscreen.
- 1.8 GHz octa-core processor.
- Landscape or portrait mode.
- Dual 2W speaker in landscape mode.
- 2D omnidirectional barcode scanner.
- Optional 13MP camera.
- Power: PoE, 5VDC

SOLO

Starts at $2,195 MSRP

- Radio-free device.
- Android 7.1
- 5" LCD with capacitive touchscreen.
- 47-key and 41-key tactile keypads.
- With or without pistol grip handle.
- DC Suite data collection software.
- 24.3 watt-hour battery.
- Multiple barcode scanning options.
- IP65, 6' drop rating to concrete.

Solo is specifically made for use in secure environments where the presence of radios, or even radio components, are strictly forbidden. Solo is ideal for aerospace, military bases and defense contractors.
