

All-in-One Solution

Barcode Data Collection

The combined power of AML's DC Suite Software and the PDX10 Mobile Computer boosts worker productivity. This out-of-box combo requires no programming and fits any budget.

DC Suite is a collection of seven applications that come preloaded on the PDX10 Mobile Computer. These default apps are designed for completing simple inventory-related tasks.

The **DC Console** desktop application is "Command Central" for AML's DC Suite Software. Users can modify the existing DC Suite apps or they can create their own from scratch. No programming knowledge is required and DC Suite is available with lifetime access.

Once the data is collected, it can be easily uploaded to a PC using either a USB connection or via Wi-Fi. Data can be exported as a .csv or Excel® file.

Real-time Data Sync

For real-time data transfer, DC Works may be a better fit. AML's **DC Works Software** allows users to create their own apps and update database tables in real-time.

*A subscription is required for DC Works.

- Android™ 14
- Octa-core 2 GHz Processor
- 4" Display, 800 x 480
- 20-key Tactile Keypad
- 64GB Storage Memory
- 2D Barcode Scanning
- 18.5 Watt-hour Battery
- 802.11 a/b/g/n/ac
- Bluetooth® 5.0
- USB, Type C
- IP65 Ingress Protection
- 6' Drop Rating (1.8 meters)

4.0" - 480 x 800 IPS LCD

Barcode Scanner Standard Range 2D Imager

Features Built-in Microphone and Speaker
NFC

Main Battery 18.5 Watt-hour Lithium-Ion

Standard Warranty

AML products are warranted against defects in material and workmanship under normal use and service for a period of one year from the date of purchase. The obligation of AML under this warranty is limited to furnishing labor and materials necessary to return the product to its normal operating condition, or to replace the unit, at AML's discretion, and only on a "return to factory" basis. This limited warranty does not extend to any product, which has been modified, misused, abused, or incorrectly installed. Warranty, also, does not extend to any product that has been repaired or altered by any party other than AML, or has been subjected to unusual physical or electrical stress, negligence or accident. Prior to returning a product for repair, the user must obtain a Return Authorization Number, which must be clearly marked on the outside of the shipping container.
